

HOW ARE WE DOING?

We need your candid input and observations to enhance our long-term mission delivery. Our treatment/program goal is to improve pro-social behaviors and attitudes of the offenders that you refer to us. With your help, we will work to strengthen our program and fine-tune any weak points that you share. Our continued partnership is crucial to the offenders' successful reintegration in your community and to our mutual Public Safety Mission.

Listed below are traits known as "Developmental Competencies". Rank as many categories as you can based on your personal observations of STAR graduates in general on a quarterly basis (or more often if you desire). The survey is meant to capture your observations of multiple offenders, not specific individuals. When complete please fax to 740-354-9076 attn: John Adkins.

Thank you for your continued support.

Please evaluate these qualities using the following scale:

- | | | |
|----------|---------------------|--|
| 3 | <i>Good</i> | Performance occasionally exceeds expectations |
| 2 | <i>Satisfactory</i> | Performance meets expectations |
| 1 | <i>Poor</i> | Performance is below expectations |

+++++

- | | Rating |
|--|---------------|
| 1. Maturity (Impulsive behaviors, delayed gratification, accepting authority) | _____ |
